

T4100® with MilEdges®

A premium 5-rib tread, only available with MilEdges. Deep tread depth and exclusive MilEdges assure exceptional tread wear and excellent wet-road stability.

Radial Only
TREAD DEPTH - 15/32

FCR™ Trailer

The specialty compounded, high mileage shallow tread especially designed for today's trailers provides great traction while still allowing for best-in-class type fuel efficiency.

Also available with MilEdges®, Radial Only
TREAD DEPTH - 11/32

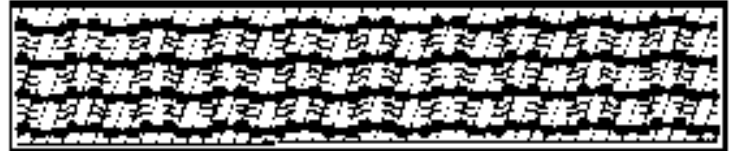

Hi Speed

This lightweight 5-rib tread design was created by Bandag to achieve good performance in either bias or radial applications.

Also available with MilEdges®, Radial/Bias
TREAD DEPTH - 11 to 12/32nd's

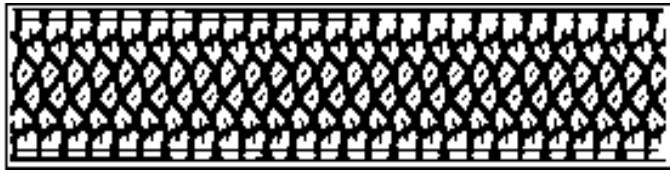

Eclipse Trailer with MilEdges®

Over-the-road trailer.

Radial Only
TREAD DEPTH - 14/32

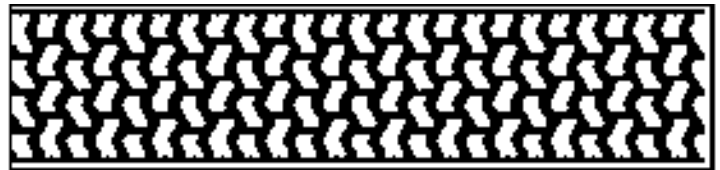

ATR™-M

Over-the-road, pickup and delivery drive.

Radial/Bias
TREAD DEPTH - 22/32

Gripper

Dynamic tread lug pattern provides impressive drive-wheel traction. Tread digs in to handle rain or snow, while a deep tread depth delivers long mileage.

Radial Only
TREAD DEPTH - 14 to 22/32nd's

D4300®

A deep, all-weather, tread that delivers excellent mileage while meeting the traction requirements of normal linehaul applications. Shoulder grooves have been deepened to enhance traction.

Also available with MilEdges®, Radial Only
TREAD DEPTH - 22/32

Ultra Drive™

A deep, all-weather, drive axle tread. Stone penetration protectors in the grooves help guard against foreign material damage. Slotted shoulders and unique blading provide excellent traction.

Also available with MilEdges®, Radial Only
TREAD DEPTH - 26/32

Eclipse Drive

A deep, all-weather drive axle tread ideal for linehaul and local P&D applications. Provides outstanding mileage and traction.

Radial Only
TREAD DEPTH - 22/32

WH Lug™

On /off road drive.

Radial Only
TREAD DEPTH - 26 to 28/32nd's

D4310®

A deep, all-weather, drive axle tread. Delivers excellent mileage while meeting the traction requirements of normal linehaul applications.

Radial Only
TREAD DEPTH - 22 to 24/32nd's

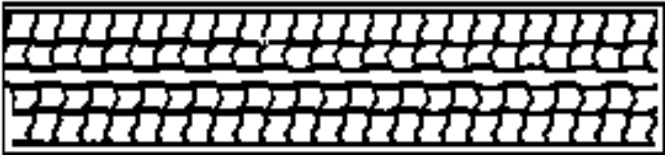

TorqueMaster Drive™

Developed and tested under rigorous high torque conditions pulling doubles and triples.

Radial Only
TREAD DEPTH - 26/32

FCR™ Drive

The specially compounded, high mileage tread that provides great traction while still allowing for best-in-class type fuel efficiency in a drive position setting.

Radial Only
TREAD DEPTH - 20/32

Eclipse Mud & Snow

Designed for high torque, fast-wearing wheel positions. Ideal for tractors pulling doubles and triples in northern snow environments. Excellent for over-the-road applications which require aggressive traction.

Radial Only
TREAD DEPTH - 22/32

Wide Base Lug

An aggressive drive position tread offering excellent mileage in wide-base applications.

Radial/Bias
TREAD DEPTH - 18/32

Drive Trac™

A lightweight, cool-running drive-wheel tread that offers excellent traction in a variety of applications.

Radial Only
TREAD DEPTH - 18/32

RTP™

An outstanding all-wheel position tread with deep tread depth for superior mileage in on- and off-the-road uses. Contains voids designed to eject stones which can extend casing life.

Also available with MilEdges®, Radial Only
TREAD DEPTH - 18 to 20/32nd's

Highway

A truly universal all-wheel position rib tread with a long history of proven performance. It can be effectively used with either bias or radial tires.

Also available with MilEdges®, Radial/Bias
TREAD DEPTH - 14 to 19/32nd's

R4200 & R4200 MilEdges®

Over-the-road all position.

Radial Only
TREAD DEPTH - 20/32

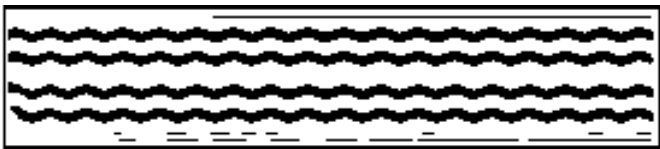

Wide Base Rib

This 5-rib all-wheel-position tread is ideal for wide-base service where outstanding mileage is an important criterion.

Radial/Bias
TREAD DEPTH - 16/32

Eclipse SST

Trailer tread ideal for on/off road and heavy load spread-axle or multi-axle fleets. Handles the twisting, turning and torturous routes of applications such as construction, mining, bulk carriers and more.

Radial Only
TREAD DEPTH - 15/32

FCR™ Rib with MilEdges®

The specially compounded, high mileage tread that provides great traction while still allowing for the best-in-class type fuel efficiency in our all position setting.

Radial Only
TREAD DEPTH - 16/32

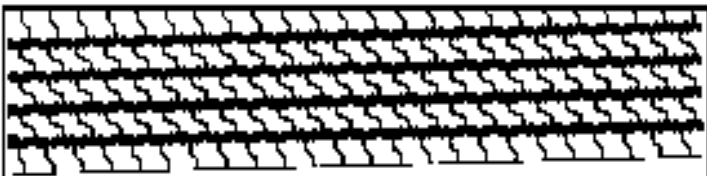

WH Rib™

A deep, all-wheel position rib tread featuring excellent penetration resistance for on- and off-the-road, slow-speed, short-haul applications. Nonuniform groove wall angles to fight stone retention.

Radial Only
TREAD DEPTH - 24/32

Ultra All-Position™ & MilEdges®

This low void ratio tread will put more rubber on the road for increased treadlife and improved traction.

Radial Only
TREAD DEPTH - 18/32

MetroMax™ Rib

The application specific replacement for the Brawny Rib that's designed for all-wheel positions in light commercial applications that deal with severe inner city driving conditions as well as highway usage.

Radial Only
TREAD DEPTH - 13 to 16/32nd's

MetroMax™ Drive

The application specific replacement for the Brawny Lug designed for drive positions for use in light commercial applications that deal with severe inner city driving conditions as well as highway usage.

Radial Only
TREAD DEPTH - 16 to 20/32nd's
